Introducing The Latest In Medical Image Viewing & Sharing!

ImageCloud[®]365

- > NO HARDWARE
- > NO SOFTWARE
- > VIEW ON ANY DEVICE

Access & Sharing is Fast, Simple, & Secure

ImageCloud[®]365 is a fast and easy way to view and share medical images such as x-rays, Ultrasound, CT, MRI across all healthcare organizations both large and small. In seconds, you can upload DICOM files from a C.D., hard drive or existing PACS or with our Smart Router directly from the modality, view it on-line and share it with colleagues, patients or referring physicians. Once your images are up on ImageCloud[®]365, you can access and view them from any desktop or mobile device as often as needed.

Compatibility

ImageCloud[®]365 medical image viewer is built to work entirely within a modern web browser, with no plug-ins to install. This means it works on most operating systems, mobile devices and smartphones, including Mac OS X, Windows, iOS and Android. Below is a full list of supported browsers and platforms.

Browser support

Internet Explorer: 10 and above | Chrome: 18 and above
FireFox: 23 and above | Safari: 6 and above

Platform support

Windows 7 and above, Mac OS X 10.6 and above, iPad and iPhone with iOS 5.0 and above, Android 4.0 and above.
